SKILLS

PROGRAMMING

Languages:

- Java • Python • C++ • Dart
- HTML • C • GraphQL

Frameworks:

- Flutter • Django • Firebase
- Git/Github • Android

OS:

- Linux • Windows

Others:

- Figma • Power BI • Azure

COURSES

Object Oriented Programming
Data Structures and Algorithms
Database Management
Computer Networks
Design and Analysis of Algorithms
Flutter Development

EXPERIENCE

MAQ SOFTWARE | ASSOCIATE SOFTWARE ENGINEER

September 2023 - Present

- Gathered requirements, designed architectures, and developed applications using Azure, Power BI, and did data validation using SQL.
- Key contributions: Database design, coding, testing, and troubleshooting. Committed to ongoing skill improvement through training and certifications.

THE INTERNET FOLKS | SOFTWARE ENGINEERING INTERN

July 2023 – September 2023

- Contributed to two live Flutter applications with a combined user base exceeding 20,000.
- Collaborated effectively with cross-functional teams to introduce innovative features, resulting in increased user engagement and satisfaction.
- Conducted rigorous code reviews, offering valuable feedback to maintain top-notch code quality and efficiency.

GOOGLE DEVELOPER STUDENTS CLUB | GLBITM

Sep 2021 - Sep 2022

- **Mentored** students in **Flutter** app development, boosting their skills and confidence, while actively contributing to club events and workshops, organizing tech talks on best software development practices.

PROJECTS

AILAAN -CODING CONTEST ALERT | PLAYSTORE

- Developed a cross-platform mobile application using **Flutter**, **Dart**, and **Firebase** to bring information about running and future coding contests schedules from different coding platforms to the user's fingertips.
- The app uses **RealWorld API**, whose data is stored on a **Django** server hosted on **Heroku**. The server uses **web scraping** and public APIs to access data, which is then stored in a **SQLite** database.

NOTIFYX-COLLEGE OFFICIAL APPLICATION | SOURCE CODE

- **Managed Digitization of Online registrations**, Venue/Slot booking. Conducted workload assessment and devised new operational processes that led to a **40% increase in productivity**. **Flutter**, **Firebase**, **Google Drive API**

ACHIEVEMENTS

KNIGHT ON LEETCODE TOP 4% WORLDWIDE.

Achieved max Rating of 1881 with over 500+ question solved and 1000+ problems in other online coding platforms

SECURED AIR 8 IN CODING NINJAS CODE COMBAT
